Delighting You Always

Vivid and Vibrant Colour output with intuitive usability and powerful end-to-end document capability

The imageRUNNER ADVANCE C3500 series is small in size but big in its ambition to solve your challenges around managing your documents. It is the perfect addition to support and optimise any busy working groups day-to-day workflows.

Workflow Efficiency

- Intuitive user interface with a large, colour touchscreen provides users with smartphone-like usability, making navigation a breeze.

- Single-Pass document feeder option allows effortless, rapid scanning with features like multi-sheet feed detection and skip blank originals.

- Advanced Personalisation enables a unique, personal experience tailored to meet each user's workflow needs. Settings, such as display language, initial log-in screen, and accessibility options, can be synchronised across multiple devices for consistency.

- Canon's MEAP platform provides process optimisation, by integrating with a range of powerful document, capture and output management solutions.

- Scalable support for mobile where users can connect directly to the device with Direct Access Point. Capture, scan or print documents easily with the Canon Print Business app.

- Intelligent Recovery wakes device from sleep mode when user is approaching device via motion sensor technology.

- Various finishing functions such as Staple-on-Demand, ECO-Staple, saddle stitch, double/corner stapling and foldings are available as an option.

Cost Management

- The ability to apply print policies, monitor output, and restrict usage by user helps reduce unnecessary printing, resulting in lower total document cost.

- Tight integration with output management solutions, such as uniFLOW, provides the ability to carry out detailed tracking, reporting, and cost analysis.

- Quality and reliability, combined with remote diagnostics and assistance, can help reduce costs by minimising downtime and time spent by IT resolving issues.

- Consistent user operation combined with remote and centralised fleet management can help simplify IT management of devices and entire fleets.

- Save on fax transmission costs by utilising the IP Fax option.

Security

- Control who has access to the device with Picture Login authentication.

- Prevent unauthorised distribution of sensitive information with an array of standard and optional document security features.

- Ensure information privacy and security across your network with IPsec, port filtering capabilities, and SSL technology.

- Secure Print and Mailbox Simple enhance document confidentiality.

Device and Fleet Management Efficiency

- Synchronise personalised user settings across multiple devices through Advanced Personalisation Sync.

- Canon's device management tools give you a centralised point of control across your entire fleet, upgrade devices remotely, check device and consumables status and capture meter readings.

- Optional PCL and Adobe PostScript print driver allows seamless integration with enterprise applications.

- Remote diagnostics allow timely, accurate and effective resolution.

Reliability

- V^2 (Vivid & Vibrant) imaging technology ensures high quality printouts that impress time after time.

- Supreme transferability of toner and stable reproduction of colours onto a wide range of media, even at large volumes.

- State-of-the-art imaging technologies and toner allow for consistently striking images with real 1,200 dpi. print resolution.

- Designed to achieve maximum uptime with intuitive user walkthrough videos and status notifications, to help keep supplies replenished.

- Robust design and engine, with up to 2,300 sheet paper capacity, perfect for handling workloads of busy workgroups.

Sustainability

- The pQ toner features low-heat on-demand fusing resulting in faster prints, lower power use and a greener environment.

- Minimise waste by holding jobs at the device with Force Hold Print. Choose to preview your print jobs or even change print settings at the device to achieve the desired results at the first time of printing.

- Incorporates sustainable design, with the use of recycled materials and bio-based plastic, and a focus on minimising environmental impact.

- Consumes as little as 0.8W in sleep mode.
